FOR IMMEDIATE RELEASE

END II END CEO SELECTED FOR SATELLITE 2006 PANELS

CHARLOTTE, N.C., December 12, 2005, -- End II End Communications, Inc. (End II End), a leading provider of network security and optimization software for terrestrial and satellite Wide Area Networks (WANs), today announced that its CEO, John Dwyer, had been selected to participate on panels for upcoming SATELLITE2006 satellite industry conference.

End II End's CEO John Dwyer is eagerly anticipating the events. According to Dwyer, "We are honored to be asked to participate in the SATELLITE2006 show as it is one of the most prestigious conferences in the industry. As the leader in the hottest sector of the satellite industry—value added services—we look forward to sharing our vision of the future of satellite networks with other industry professionals."

Information on the conference and specific panels on which Dwyer will participate are given below.

SATELLITE2006 Expo

Hosted by ViaSatellite Magazine, the satellite industry's leading publication, SATELLITE2006 will be held in the heart of Washington, D.C., at the Washington Convention Center, from February 6-9, 2006. SATELLITE 2006 assembles an outstanding spectrum of industry-leading companies, business executives, and end users who attend the cutting-edge conference sessions and exhibition.

Below are the workshop panels on which John Dwyer is slated to speak:

**Adding Value on The Ground:
How Terrestrial Technologies Can Create New Satellite Service Customers
Wednesday, February 8, 2006 (2:00-3:15PM)**

**Private Networks: Meeting The Changing Needs Of The End User
Tuesday, February 7, 2006 (11:30AM-12:45PM)**

About End II End Communications, Inc.

End II End Communications, Inc. (End II End) is a leading provider of network security and optimization software for terrestrial and satellite Wide Area Networks (WANs). The company's patent-pending optimization and management technologies are the foundation for our breakthrough Gateway Security and Optimization software which delivers maximum security and performance for ALL enterprise applications over terrestrial and satellite networks. Customers such as **BASF, Jordache** and **National Gypsum Company** use our unique software to slash their IT spending while enhancing network security and performance. Service providers use End II End's software to sell high-margin, turnkey managed services such as IP VPN, Firewall, Intrusion Detection (IDS), Network Management and Reporting, Network

Monitoring and Business Continuity. End II End was founded in 2001 and is headquartered in Charlotte, NC.
